Message from the Chairman

“ Siam Global House Public Company Limited, Directors, Executives and all employees, proud to be one part of the company to develop the management system under the good corporate governance to continue the growth and sustainable including create a good return to shareholders and all stakeholders. Finally, I would like to thank all stakeholders, customer, business partners as well as the sponsors that have trust and support the operations of the company well over. ”

Dear Shareholders and Stakeholders.

In year 2020, Its the years of changeable which is cause from the coronavirus (COVID-19) crisis epidemic. The government has to make an announcement to lock down all over the country to control the contagion. The lock down measure is social distancing which impacted to life style, living, sociality and also entrepreneur that they have to shut up their business to survive with strongly depression economic.

Under the circumstances of the coronavirus (COVID-19) crisis, the company has strictly complied with the government policy by carefully operating the business under good corporate governance and adjusting the operation strategy in accordance with the current economic conditions by focus more on selling products and services through online channels and promoting sales of House Brand products. As well as a good-cooperation of the board of directors, executives, and all employees of Siam Global House Public Company Limited, the company continued to perform at a satisfactory level amid the economic recession. In 2020, the company had total revenues of 27,353.89 million Baht, decreasing from 2019 as 4.44 percent. Net profit of 1,975.52 million Baht, decreasing from 2019 as 6.55 percent. However, the company has started 5 new branches last year namely Sai Noi branch, Det Udom branch, Phayao branch, Kuchinarai branch, and Vieng Papao branch.

Over 23 years, Siam Global House Public Company Limited has strictly on good governance to operate the business with transparency. In the past year, the company has concerned of coronavirus (COVID-19) crisis epidemic and people's health therefore the company has cooperate with SCG foundation donated Modular Screening & Swab Unit 3 units for Roi-et Hospital and 6 units for 5 Hospitals in Roi-et which is Suvarnaphum Hospital, Tawatburi Hospital, Nong Phok Hospital, Assamat Hospital and Phnom Prai Hospital for use in medical treatment.

Yours Sincerely,

(Mr. Apisit Rujikeatkamjorn)
Chairman

Message from Chief Executive Officer

“ For operational strategies, We still committed to promote our Product Mix strategy to meet our customers’ needs. This strategy maintained gross profits to be in a satisfied level under the slowing economic crisis. ”

Dear Shareholders and Stakeholders.

In 2020, the rapid epidemic of coronavirus (COVID-19) has affected thousands of people, business, and global economy.

In 4th quarter of 2020, our management team has prepared for the workforce management in a slowing economy as soon as we have noticed that the annual budget of 2021 has not been approved yet. When the epidemic of coronavirus (COVID-19) occurred, our 39 of 67 stores were closed for 2 months and half since 22 March 2020. The employees who work for those temporarily closed stores were paid at a rate of 75%. For those who stay home for the sake of the nation were paid in advance by the Social Security Office at a rate of 62%.

In 2020, the company had sales revenue of 26,802.96 million Baht, decreasing from 2019 as 1,278.49 million Baht or a 4.55 percent. Net profit of 1,975.52 million Baht, decreasing from 2019 as 138.56 million Baht or a 6.55 percent. The company has 71 operating stores on the date 31 December 2020, increasing 5 stores from last year. In 2021, we have plans to continuously expand about 5-7 stores for the company’s sustainability growth.

Finally, I would like to thank you shareholders and stakeholders for your supports on the company’s operation. I wish you to be healthy and be safe from COVID-19. Thank you.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'W. Suriyawanakul'.

(Mr. Witoon Suriyawanakul)
Chief Executive Officer

Marketing and Competition

Competitors

We can divide our competitor into 2 groups :

1. Home Improvement Stores for example :

- **Home Pro** manages by Home Product Center Public Company Limited under an objective to operate a retailing business. The company distributes construction material, home improvement under the concept “One Stop Shopping Home Center”. Home Pro currently has more than 87 branches. and Home Pro’S has 9 branches.
- **Thai Watsadu** manages by CRC Power Retail Company Limited. The company distributes construction material, home improvement under the concept “One-Stop-Shopping Construction Material Suppliers for Thai”. Thai Watsadu has 56 branches.
- **Home Hub** manages by Mr. Ongat Tangmitpracha. The company distributes construction material, home improvement under the concept “Home Hub Fast and Easy”. Home Hub has 5 branches. They establish on Ubon Ratchathani for 3 branches, Khon Kaen and Udonthani.
- **Do Home** manages by Ubonwatsadu Co Ltd,. The company distributes construction material, home improvement under the concept “One-Stop Shopping and Cheap at Do Home”. They have 12 branches and establish on Ubon Ratchathani, Nakhon Ratchasima, Pathumthanee (Rung Sit, Klong 7), Khon Kaen, Udonthani, Bangbuathong, Chiangmai, Rama2, Phet Kasem, BangNa-Trad 38, Surin and Map Ta Phut. And Do Home To Go has 11 branches.
- **MEGA HOME** manage by Mega Home Center, the building materials distribution center and appliances. The major shareholder is Home Product Center Public Company Limited was operated 14 branches in

Rangsit, Minburi, Rojana, Mae Sot, Nong Khai, Boa Win, Kabinburi, Arunprathed, Hat yai, Nakhon Ratchasima, Nakhon Phanom, Chiang Rai, Bang Na and Ban Chang

- **Baan & BEYOND** manage by CRC Thai Watsadu Co.,Ltd. It’s department store for home and operated in year 2013, currently has 7 branches in Chaing Mai, Mitthaphap(Khon kean), Pattaya, Ratthanatibat, Ratchapruek, Phuket and Bang Yai.

2. Specialty Stores for example :

- Small retail store: Home mart, which have the objective to distribute the SCG product. However, the company still lack of the other products such as ceramic tile, paint, electrical equipment and pumping.
- Ceramic and Sanitary ware Center: Boonthavorn, Decormart, Grand Home Mart, Inter Sanitary Ceramic, and IKEA they all focus on ceramic and sanitary ware product.
- Furniture and decorative: such as Index Living Mall and SB Furniture. These companies sell decorative item, furniture, bed room set, living room set and kitchen accessories for high purchasing power customers.
- Electronic Appliances: Power Buy, it is managed by Central Retail Corporation. Power Mall, it is managed by The Mall Group.
- Specialty Store: such as paint store, pumping store, electrical equipment store hardware store etc. However, this kind of store still lack of diversity in product and operate under traditional trade concept.

04

Risk Factors

4. Risk Factors

The Company have realized on the risk that may arise and affect the business operations. Therefore, the Company have been determined the key risk and risk management in order to operate business with target. As a result, the Company is able to reduce likelihood and impact of risks, including maintaining the risk level into acceptable risk level. Risk factors which impact to the operation able to summarize as follows.

4.1 Strategic Risks

1) Risk from domestic business expansion investment

In 2020, the company has opened 5 new stores that totaling 71 branches coverage 57 provinces, which arranged in order of opening operations i.e. Roi-Et, Khon Kaen (3 stores), Udonthani (2 stores), Chiang Mai (2 stores), Rayong , Chonburi, Nakhon prathom (2 stores), Ratchaburi, Kalasin (2 stores), Nakhonsawan, Mahasarakam, NongKai, Nakhonratchasima (3 stores), SakonNakhon (2 stores), NakhonPhanom, Chaiyaphum, Surin, Phitsanulok, Lamphun, Mukdahan, Phare, Nan, Lampang, Sukhothai, Kampangetch, Ubonratchathani (2 stores), Lopburi, Trad, Chanthaburi, Nongbualamphu, Petchboon, Buriram (2 stores), Nakhonnayok, Yasothon, Bungkan, PrachuapKhirikhan (2 stores), Pathumthani, Singburi, Samutsongkram, ChiangRai (3 stores), Suratthani, Kanchanaburi, Nokhonsithammarat, Ang Thong, Uttaradit, Loei, Phatthalung, Samut Prakan, Phranakhonsi Ayutthaya, Chai Nat, Mae Hong Son, Satun, Phuket, Srisaket, Samutsakorn, Phayao and Nonthaburi. Now, the Company still has 5 stores which have been under construction such as Prachin Buri (Kabin Buri), Maha Sarakham (Phayakkhaphum Phisai), Surat Thani (Samui), Chiang Rai (Phan) and Udon Thani (Nong Han). which would be operate in 2021.

As, the investment in opening more new branch has to spend money around 300 - 400 million baht. So, the cost of high investment would be risk business if company could not complete the objective on time. The uncontrollable factors can also be effected any problem to company for example, the business crisis in Thailand, the world business crisis, changed government in the country, customer behavior and the situation of coronavirus 2019 (COVID-19) outbreak.

In addition, to invest in new store, the company does probability research and analyze the environment of

business and customer target in the area that company will get business into that area. Moreover, the company has more experience than 20 years of home improvement business. It is easy to find cheaper price than competitors about small cost of land and material of construction.

2) Risk from foreign business expansion investment

The Company has expanded to Cambodia and opening the first store in Phnom Penh on 17 November 2018. It is the first branch in AEC (Asean Economic Community) and the first center of building materials and decoration goods in Cambodia. The Company considers readiness in various parts such as the opportunities of business growth, consumer's behavior and purchasing of consumer's power.

Due the Company has a policy to expand the investment in oversea continuously. The Company managed the risk from expanding oversea investment by studying marketing, law, tax government policies and other factors, in order to assess the impact and opportunities that may occurred for determine the investment plans to reduce the risk.

3) Risk from business competition

Overview of retail businesses on construction materials, decoration and repairing products is highly competitive due to the increasing number of entrepreneurs. Also, the market value has been continuously increasing over the past years, causing major wholesaler and retailer groups such as Home Pro, Home Mart, Thai Watsadu, Home Hub, and Do Home, to continuously expand their branches or appoint distribution agents to areas where are near the communities, business areas and department stores in Bangkok, and other regions. This may affect the Company regarding the market share from sales revenue that may not meet the goal as expected, and it could affect the profit margin of the Company due to the price competition.

However, the Company has made plan to deal with such competition by the emphasis on the differentiation strategy for sales and services, for example, the distribution of various construction materials and equipment more than 270,000 products, allowing customers to browse and purchase for all kinds of items which are necessary for construction, renovation or decoration. In addition, there are structure items such as cement, steel bars, structural steel, roof tiles and construction materials that are available for sale while these products are only sold in certain wholesalers and retailers. Plus, the Company pays attention to the sourcing of plants that could produce high-quality products at the production cost for our competitive advantage. Therefore, these are major factors that help to decrease the competition risk in this industry for the Company.

4) Risk from the major shareholder

The Suriyawanakuls and SCG Distribution Co., Ltd. are the major shareholders that holding shares more than 25%. As at 31 December 2020 held totaling 2,991,732,869 shares or 67.97% of the total issued shares. Therefore the Suriyawanakuls and SCG Distribution Co., Ltd. can control the resolution of the shareholders passed at all, the appointment directors or other matters that require the approval of a majority of the shareholders' meeting. Exception to the law or the Company determines to get 3/4 votes of AGM. So the other shareholders may not have enough votes to check and balance that proposed by major shareholders.

However, the Company has operational requirements in accordance with the Code of Conduct and good corporate governance to protect the rights of shareholders and control the Company's operations with transparency and accountability.

4.2 Operational Risks

1) Risk from inventory investment

As at 31st December 2018, 31st December 2019, and 31st December 2020, the Company had inventory of 13,297.75 million Baht 15,602.53 million Baht and 14,287.20 million Baht respectively, or in percentage to total asset are

42.87%, 43.36% and 39.66%. In addition, the risks of inventory could be becoming damaged, lost, and obsolete. As for mitigation, the Company has plans and practices in place to manage inventory risks such as providing various channels and campaign (i.e. reduce price, buy one get another one for special price, and send coupon for complete any prize) to reduce slow moving stock.

In addition, the company installed the "Automated Storage & Retrieval System: ASRS" for stores that operated in the year 2016. ASRS is a warehouse management system be more efficient and reduced inventory by connecting IT with the management system of the company. That reduces the inventory risk of the company. In addition, the Company also has a policy to install an Automated Storage & Retrieval System for branches that operated before 2016. Which has already started to install ASRS at Roi Et branch, the first branch of the Company.

2) Risk from cost of products volatility

Since the cost of products can fluctuate towards the economic conditions and affect some products that company sells, consisting of the products that have low fluctuate cost and structural products that have frustrations at price all the time such as steel bars, structural steel, wires, etc. Thus, the Company might gain some risk when stocking such items into inventory. However, the Company has set a policy on pricing to be flexible concerning the fluctuating cost and has closely managed on the stock retention period, hence, the Company did not receive much impact by price fluctuation. Besides, the Company has ordered most products directly from the manufacturer, as a result, the Company received a certain price and also cheaper price than ordering through agents. It causes the company to be able to set the price at an appropriate and competitive for the market while the Company still has the ability to earn a profit at the same or greater amount.

3) Risk from conflagration in buildings

As, the conflagration can damage life and destroy any products. So, the company has policy of fire protection by set up the first aid tools to prevent the unexceptional from fire such as fire extinguisher and rubber tube for

water which can find in the proper area around the store. The company also check those tools everyday. Moreover, we also specify and train our staffs about how to do when the conflagration is happened. In addition, the company have been done the Residential and Commercial Property Insurance to defend any caused that can effect to company. We have to concern about the money value from supplier every time because we have to assure that our company are in the protection zone.

4) Risk from a change of consumer behavior and obsolete products

The Company is the distributor of construction materials and furnishing products, that some kind of goods will be popular for a while only .That the Company may not sell the obsolete goods. Therefore, the Company managed by transferred those products to other branches or made the in stores promotion to reduce amount of obsolete goods. Furthermore, the Company has authority to negotiate with the suppliers that can change the new products replace the obsolete products, which reduced the risk of changes in the value's customers and the obsolescence products

5) Fraud risk

The company has a strong control framework in respect of potential fraud or other dishonest behavior, which is regularly reviewed by internal audit. A set of policies is in place to provide colleagues with clear guidance on behavior. In addition, there are 'whistle blowing' procedures in place to enable colleagues to raise concerns about possible improprieties on a confidential basis. Internal audit undertakes detailed investigations and highlights its findings to the Audit Committee. Which can be notified via this channels ,example the Company's website www.globalhouse.co.th in the topic "Whistle Blowing" or e-mail secretary@globalhouse.co.th or Call Center 1160

6) Risk of epidemic disease

The Last year, Thailand and around the world are faced with the epidemic situation of the Coronavirus 2019 (COVID-19) and forcing the government to declare a state of emergency and lockdown the city to control the epidemic of Coronavirus 2019. The lockdown measure

is a measure for social distancing and most of people have work at home which affects to sales and services and consumer's behavior have changed to buy via online channels. In order to reduce e impact of the event, the Company has a policy to focus on selling products via online channel as well as developing the applications "Click & Collect", add a payment methods to make the customer access the services easier and more convenient. In addition, the Company developed "Drive Up" channel to pick up the products quickly that customers not get off the cars

In addition, with concern for the health of all stakeholders. The Company has set preventive measures and guidelines on the Coronavirus2019 for employees, partners, visitors, customers and the maintenance of cleanliness the area of stores and office in order to prevent the outbreak. The Company disclouserred the guidelines to all departments and stores and strictly observe.

4.3 Financial Risk

1) Financial risk

Although the Company will repayment the long term loan to the financial institutions, but still keep the relationship by continuing to use credit limit with several banks in order to increase the ability of negotiate.

In addition, the company policy is to sell our product mostly in cash and hence most of our revenue is in cash. As in 2018 was 94.22%, in 2019 was 95.89 % and in 2020 was 96.73%. The figures is showing a decreasing trend as the Company is paying a lot of attention giving credits and only consider reliable projects and customers. As at December 31, 2020 the Company has account receivable of 95.85 million Baht.

However, for the credit sales, the Company will consider only project that has reliable financial status, which the company has analyzed the result of operation and financial status or having the contractor place with a letter of guarantee as security against debt payment, etc. Besides, the general accounts receivable which not have guarantees and overdue more than 60 days, the Company

will set the allowance for doubtful bad debts to be 100% and for the accounts receivable- government agencies foreign receivables and related parties receivable which have overdue more than 90 days the Company will set the allowance for doubtful bad debts to be 100%. In 2020, the Company recorded the allowance for doubtful account of 2.93 million Baht and the last year, the Company had not bad debt.

2) Risk from foreign currency volatility

The products in store are both domestic and import from international. As the fluctuation of exchange rate will be gain some problem because we cannot predict the world situation. So to reduce the risk of exchange rate, the company has policy to follow the foreign currency volatility. In addition, the company has to control any risk within the fluctuation of foreign exchange rates by used any forward Contract from banks to defend any risk if occur. The Company had 2 forward contracts and as of December 31, 2020. The volume of monetary is 4,220 million baht and 72.77 million USD, credit used is 272.20 million Baht. However, the Company not effected by exchange rate risk.

4.4 Compliance Risk

1) Risk from acquiring or having in place licenses or maintain licenses for business operations

In operating the business, some kind of products require a license to sell. That the Company has to provide or maintain various licenses to operate business, for examples, a license or possession for the commercial purpose of the invention utensils or other things made of forbidden wood ,license to sell or hold for sell of fertilizer , license for possession of hazardous substance ,license to operate business harmful to health , license to sell controlled seed. The company may have risk in providing a license or unable to renew licenses within the time completely which may affect to business operations. However, the Company pays attention to this issue and closely monitored the operation through the Company's system

2) Risk in compliance with applicable laws and regulations

The Company recognize on strictly comply with applicable laws and regulations. Although government agencies are currently in the process of revising or issuing new laws that relevant with business operations such as the Land and Building Tax Act B.E.2562, Personal Data Protect Protection Act B.E.2562 and Trade Competition Act B.E.2560. The Company place importance on studying and understanding for these laws and informed to relevant departments. Along with planning business operation plans in accordance with the regulations correctly.

4.5 Information Technology Risk

1) Risk from change in technology

Presently, the advancement of technology has significantly impact on business operations and competition as play an important role in consumer's behavior such as the increasing preferences of online purchases or accessing more information through digital media, resulting many entrepreneurs to change their business models. The refore, the Company has developed various approaches to manage the changing of technology and higher competition by revised business strategy and model to enter the Omni- Channel, developing a Click & Collect application to connect data between stores and online channel, including a various of payment channels which allows customers to easily access to products and services. In addition, the Company has improved and developed Roi Et branch which is the first store to be a prototype of the Digital store in order to increase the efficiency of customers service, management and reduce the environmental impact.

“Global House”

operates a retail business in construction and home improvement segment selling a wide range of product, from heavy construction material to light decorative products under the concept

One Stop Shopping Home Center

Factors that may affect the Company's performance in the future.

The key factors that may affect to the Company's performance in the future consist of 4 cases as follow;

1. The fluctuations of the domestic economy

Currently, the opinion of academics and economic experts shown the economics of Thailand may be slow down by several factors, especially the drought in several regions of country that may affect to investment and including the reduction of public spending. During the past, the Company has been monitoring the situation and analyzed the impact on sales continuously. The Company trust on the strength of financial status of the Company that will support long term plans to expand business cover the country and ASEAN. In addition, the Company is establishing a distribution center in Ayutthaya province. In order to improve supply chain management which enhance the company's profitability in long term. The Distribution Center has operated in October 2017.

2. The fluctuations of exchange rate

The Company has imported goods for sales and the fluctuation of exchange rates is a key factor in business operation. The monthly executive meeting was tracked economic and financial situation in order to risk assess and impact from exchange rate along with setting of risk prevention continuously.

3. Competition in the industry.

The last 3 years, the acceleration of expansion of competitors including of new entrepreneurs in business that make higher competition. The Company focus on products presentation about building materials to appropriate for target customers along with the policy "All inclusive for your house" .In addition, the Company will continue focus on making a difference of service and knowledge of the staffs in order to retain the customers in long term.

In 2019, the company have renovated all existing stores to enhance the atmosphere and lighting in the stores to support the change of customer's needs and generation. Furthermore, the company is applying automated systems to the retail system in the field of Digital Transformation and development in many IT systems in the company to always create the industry competitive advantage.

4. Human resource recruitment.

The Company is currently in period of expansion to cover the country. The Company realized that the human resources , staff development and maintenance for the long term is importance. The Company has improved training courses and set human resources management policy collaborated with strategic partner "SCG Distribution Co.Ltd.". The Company ensure that be able to recruit and develop staffs to support business expansion.

Financial Statement 2020

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Financial Statements

For the Year Ended December 31, 2020
and Report of Certified Public Accountant

M.R. & ASSOCIATES CO., LTD.

Certified Public Accountants

REPORT OF CERTIFIED PUBLIC ACCOUNTANT

To the Shareholders and Board of Directors of Siam Global House Public Company Limited

Opinion

I have audited the consolidated financial statements of Siam Global House Public Company Limited and its subsidiary (the Group), which comprise the consolidated statement of financial position as at December 31, 2020, and the consolidated statement of comprehensive income, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. I have also audited the separate financial statements of Siam Global House Public Company Limited, which comprise the separate statement of financial position as at December 31, 2020, and the separate statement of comprehensive income, separate statement of changes in shareholders' equity and separate statement of cash flows for the year then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Siam Global House Public Company Limited and its subsidiary as at December 31, 2020, and their consolidated financial performance and their consolidated cash flows for the year then ended in accordance with Thai Financial Reporting Standards. Also, the accompanying separate financial statements present fairly, in all material respects, the financial position of Siam Global House Public Company Limited as at December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the

Audit of the Financial Statements section of my report. I am independent of the Group in accordance with the Federation of Accounting Professions' Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key audit matter is the matter that, in my professional judgment, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

Valuation of merchandises

The Group has various categories of products with large numbers of inventory items. The merchandise balance is material to the financial statements. As disclosed in Notes 3 and 6, merchandises are valued at the lower of cost and net realizable value. During the year, the Group reviews their merchandises values by comparing their cost against their net realizable value. Any loss on decline in value of merchandises was charged to expense for the year. The Group has established a policy to provide an allowance for obsolete and slow-moving inventories based on the physical condition and life cycle of inventory in each category. This involves significant management judgment and estimation.

My audit procedures included inquiring the management who is responsible for this to obtain the method and assumptions used in establishing the policy to provide an allowance for decline in value of merchandises. I obtain understanding of and evaluate the appropriateness of the

Company's accounting policy and review the consistency of the application of the policy. I randomly test the accuracy of the inventory aging analysis report prepared by management. I also randomly test of loss on decline in value of merchandises and test the calculation of the allowance for obsolete and slow-moving inventories according to the defined policy.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to audit committee for correction of the misstatement.

Responsibilities of Management and Audit Committee for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Audit committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also :

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness

of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide audit committee with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with audit committee, I determine that matters that were of most significance in the audit of the financial statements of the current period and is therefore the key audit matter. I describe the matter in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(Mr. Methee Ratanasrimetha)

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

1. GENERAL

Siam Global House Public Company Limited, “the Company”, is incorporated in Thailand. The Company was listed on the Stock Exchange of Thailand on August 19, 2009.

The Company is engaged in merchandising of construction and decoration materials and equipment.

The registered office is 232 Moo 19, Tambol Robmuang, Amphur Muang Roi-Et, Roi-Et.

As at December 31, 2020, the Company has a total of 71 branches operating in other provinces and its head-office is located at Amphur Roi-et, Roi-Et. The Company has a Distribution Center (DC Wang-noi) located in Amphur Wang-noi, Phra Nakhon Si Ayutthaya. The total of value added tax registration operating branch is 72 branches. (December 31, 2019: 67 branches).

2. BASIS FOR PREPARATION OF FINANCIAL STATEMENTS

The accompanying financial statements are prepared in Thai Baht, which is the core functional currency, and in the Thai language in accordance with the financial reporting standards in Thailand including interpretations and guidelines promulgated by the Federation of Accounting Professions (“TFAC”), applicable rules and regulations of the Securities and Exchange Commission. Accordingly, the accompanying financial statements are intended solely to present the financial position, financial performance, and cash flows in accordance with the financial reporting standards in Thailand.

Except as otherwise disclosed in the significant accounting policies, the accompanying financial statements have been prepared under the historical cost convention.

Starting from January 1, 2020, the Group have adopted Thai Accounting Standards (TAS) and Thai Financial Reporting

Standards (TFRS) as well as Thai Accounting Interpretation (TSIC), Thai Financial Reporting Interpretation (TFRIC) and accounting guidance, issued and revised by TFAC, which became effective from the accounting period starting on or after January 1, 2020. The aforesaid adoption of newly issued and revised TAS and TFRS as well as TSIC, TFRIC and accounting guidance did not have any material effect on the Group, except :

TFRS 9 - Financial Instruments (and other related standards)

TFRS 9 specifies the methods that the entity shall classify and measure its financial assets, financial liabilities, and contracts to purchase or sell the non-financial items. TFRS 9 is divided into the following three parts:

1. Classification and measurement
2. Impairment
3. Hedge accounting

TFRS 9 affects the Group to classify and measure its financial assets and financial liabilities in the statement of financial position for the year 2020. In addition, the Group is required to recognize impairment of expected credit loss of the financial assets in accordance with the guidelines described in the significant accounting policies.

As at December 31, 2019, there was no material effect from the measurement of financial assets and financial liabilities. In addition, no restatements of comparative information of previous periods in relation to the classification and the measurement because the Company exercised the option of modified retrospective adjustment by recognizing the cumulative effect from the first-time adoption of TFRS 9 at the date of initial application (January 1, 2020).

As at December 31, 2019, there was no effect from impairment for expected credit loss of “Trade and other accounts receivable”. Therefore, there is no restatement of comparative information of previous periods.

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

TFRS 16 - Lease

TFRS 16 specifies that lessee shall recognize right-of-use asset and lease liability for all lease agreements with the present value or discounted cash flows of payments throughout the lease term whereby the discount rate shall be considered appropriate in situation and to the entity. However, there is exception for short-term lease agreement (not exceeding 12-month period) or lease agreement for the underlying low-value asset whereby payments under the lease are able to be accounted for as expense. Right-of-use asset shall be depreciated by straight-line method over the lease term. Deferred interest, presented as deduction to lease liability, is amortized as finance cost over the lease term by the effective interest rate method. Each installment payment under the lease liability shall be separated into parts of principal and interest.

For lessor, classification and accounting for operating lease or finance lease is still required as previously applied. Therefore, there is no significant change or effect on the lessor.

The incremental borrowing rate that is used in determining the discounted cash flows by the Group is 2.5230 – 3.1878% p.a. The cumulative effect of initially applying this standard is recognized as an adjustment to retained earnings as at 1 January 2020 and no restatements of the comparative information of previous period. The impacts from the change in accounting policy due to the adoption of this standard are presented as follows :

TFAC issued several Notifications which were announced in the Royal Gazette during 2020 regarding the revision of TAS and TFRS as well as TSIC and TFRIC with effective from the accounting period starting on or after January 1, 2021 whereby the Group had not yet adopted in the preparation of the accompanying financial statements and has no policy to early adopt before effective period. Such revised TAS and TFRS as well as TSIC and TFRIC are as follows :

- TFRSs that are revised with reference to the revision of the Conceptual Framework for Financial Reporting i.e. TAS 1, TAS 8, TAS 34, TAS 37, TAS 38, TFRS 2, TFRS 3, TFRS 6, TFRIC 12, TFRIC 19, TFRIC 20, TFRIC 22, TSIC 32. Revision of the Conceptual Framework for Financial Reporting comprised of the updated definitions of assets and liabilities, the updated basis of inclusion of assets and liabilities in the financial statements as well as the newly added principles and guidance as follows:
 - Measurement that includes factors for considering the measurement basis;
 - Presentation and disclosures of information that includes when the reclassification of revenues and expenses in other comprehensive income is required;
 - The reporting entities;
 - When the assets and liabilities shall be derecognized from the financial statements.

The Conceptual Framework also clearly explains more about the role of management's ability in overseeing the entity's economic resources, prudence and uncertainty in measurements for financial reporting.

- TFRS that is revised attributable to the revision of definition of business i.e. TFRS 3 whereby the revision is aimed for helping the entity to determine whether the transaction shall be accounted for as "business combination" or "acquisition of assets".
- TFRSs that are revised attributable to the revision of definition of materiality i.e. TAS 1, TAS 8, TAS 10, TAS 34, TAS 37 whereby the revision is aimed for more understanding in the definition of materiality.
- TFRSs that are revised attributable to the revision for IBOR reformation i.e. TAS 7, TAS 9 whereby the revision relates to change in certain provisions of hedge accounting in order to relief the impacts from uncertainties caused by IBOR reformation, e.g. Interbank offer rates - IBOR. In addition, the revision requires the entity to disclose additional information to the investors about the relationships of hedging activities that are directly affected by such uncertainties.

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

The Group's management has preliminarily assessed and believed that there will be no material effect to the Group's financial statements upon adoption of the aforesaid revised TAS and TFRS as well as TSIC and TFRIC.

The Group disclosed information for the year ended December 31, 2019 for being the comparative information in the financial statements for the year ended December 31, 2020 in the form of corresponding figures.

For convenience of the readers, an English translation of the financial statements has been prepared from the Thai language statutory financial statements that are issued for domestic financial reporting purposes.

3. SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

In order to prepare financial statements in conformity with the Thai financial reporting standards, management needs to make estimates and set assumptions that affect income, expenditure, assets and liabilities in order to disclose information on the valuation of assets, liabilities and contingent liabilities. Actual outcomes may, therefore, differ from the estimates used.

The estimates and underlying assumptions used in the preparation of these financial statements are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The significant estimates and underlying assumptions used in preparation of these financial statements which may be affected by significant uncertainty are as follows :

- Useful lives and residual values of plant and equipment, right-of-use assets and intangible assets.
- Consideration of the right to renew the lease and the discount rates of the lease liabilities.
- Expected periods that deferred tax assets will be realized.

- Assumptions used in calculation of liability for post-employment benefits.
- Fair values and fair value measurements of financial assets, financial liabilities and other financial instruments.

About the pandemic of Coronavirus Disease 2019 (COVID-19), the Group's management has monitored the situation and continuously assessed the impacts from such matter. However, the COVID-19 situation is highly uncertain and may affect, whether directly or indirectly, to the environment of business operations of the Group as well as estimates and judgements used for assessing values of assets, liabilities or provisions and contingent liabilities in the financial statements that are changeable depending on the assessment of COVID-19 situation in each period made by the Group's management.

Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiary (together referred to as the "Group") and interests in joint venture. Significant intra-group transactions between the Company and its subsidiary and joint venture are eliminated on consolidation.

Subsidiary

Subsidiary is the entity controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies as well as variable returns from a company so as to obtain benefits from its activities. The financial statements of subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases. Accounting policies of subsidiary are transformed as deemed necessary to uniform for the similar policies.

Accounting for acquisitions of non-controlling interests

Changes in a parent's ownership interest in subsidiary that do not result in the loss of control are accounted for

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

within equity. When an entity loses control of subsidiary, any gain or loss is recognized in the profit or loss. Any investment retained in the former subsidiary is measured at its fair value at the date when control is lost.

Foreign Currencies**Foreign Currency Transactions**

Transactions in foreign currencies are translated to Thai Baht at the foreign exchange rates ruling at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Thai Baht at the foreign exchange rates ruling at that date. Foreign exchange differences arising on translation are recognized in the statement of comprehensive income.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to Thai Baht using the foreign exchange rates ruling at the dates of the transactions.

Foreign entity

Assets and liabilities of foreign entity are translated to Thai Baht at the exchange rates ruling at the end of reporting period (the closing rate).

Revenues and expenses of foreign entity are translated to Thai Baht at the exchange rates ruling at the dates of the transactions.

Differences arising on foreign currency translation or conversion are recognized as other comprehensive income or loss and separately presented as other component of equity until the subject foreign currency investment is disposed.

Cash and Cash Equivalents

Cash and cash equivalents are carried in the statement of financial position at cost that include cash on hand and

cash at financial institutions. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturity of three months or less and without restriction of use or being collateral and that are subject to a low or an insignificant risk of change in value.

Restricted deposits at banks were presented as a separate item under non-current assets in the statements of financial position.

Trade and Other Accounts Receivables and Allowance for Impairment of Expected Credit Loss (2020) / Allowance for Doubtful Accounts (2019)

Trade and other accounts receivables are carried at the original invoice amount or at the amount due net of allowance for expected credit loss (if any).

The Group recognizes allowance for impairment of expected credit loss in accordance with the policy described in the financial instruments section.

The Group provides an allowance for doubtful accounts equal to the estimated collection losses that may be incurred in the collection of receivables. The estimated losses are based on payment history and the historical collection experience coupled with the review of current status of the existing receivables.

Merchandises

Merchandises are valued at the lower of cost (moving average method) and net realizable value. Net realizable value is the selling price in the ordinary course of business, less marketing, distribution and other expenses which are necessary for sale of goods.

Volume incentives received from the supplier are accounted for as a reduction of the value of inventories and recognized in profit or loss when the related inventories are sold.

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

An allowance for loss is made for all deteriorated, damaged, obsolete and slow-moving inventories.

Investment in joint venture and subsidiary

Investment in joint venture and subsidiary in the separate financial statements is accounted for using the cost method net of impairment losses (if any). Dividend income is recognized when it was declared.

Property, Plant and Equipment

Land and land not used in operation are stated at cost less allowance for impairment (if any). Plant and equipment are stated at cost less accumulated depreciation and allowance for impairment (if any). When assets are retired or disposed of, their carrying amounts are eliminated from the accounts and any gain or loss resulting from their retirement or disposal is included in the statement

Land improvements	10	years
Buildings	30	years
Building improvements	5, 10 and 17	years
Furniture, fixtures and office equipment	5, 10 and 20	years
Computer equipment	3	years
Transportation	5	years

No depreciation is provided on land and assets under construction.

Right-of-use Asset

The Group measures right-of-use asset at cost less accumulated depreciation and allowance for impairment (if any) with adjustment pertaining to re-measurement of lease liabilities (if any).

At the commencement date of the lease, cost of the right-of-use asset comprised (1) the amount of initial measurement of lease liability, (2) any lease payments made at or before the commencement of the lease, less any lease incentives received, (3) any initial direct costs incurred by the lessee (if any) and (4) an estimate of costs to be incurred in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required

of comprehensive income. Costs of testing run the production or utilization of assets at normal level and costs of asset dismantlement, removal, and restoration (if any) are included as part of asset cost and subject to depreciation.

Depreciation is charged to the statement of comprehensive income on a straight-line method over the useful lives of each part of an item of assets. Depreciation is taken into account separately when each component is significant. Depreciation methods, residual values, and useful lives are reviewed at least at each financial year-end and adjusted as appropriate. The residual value of an asset is currently estimated at the present expected value of the asset if the asset is already of the age and in the condition expected at the end of its useful life. The useful lives of the assets are as follows:

by the terms and conditions of the lease (if any and being material).

Depreciation is charged as expense in profit or loss and calculated by the straight-line method attributable to the related lease terms of 6-30 years.

Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment losses.

Amortization

Amortization is charged to profit or loss on a straight-line basis over the estimated useful life of 3-5 years.

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

Impairment of Assets

The carrying amounts of the assets of the Group are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts (the higher of asset's fair value less costs to sell or value in use) shall be estimated. The review is made for individual assets or for the cash-generating unit.

In case that the carrying amount of an asset exceeds its recoverable amount, the Group recognizes the impairment losses by reducing the carrying amount of the asset to its recoverable amount and by recording the devaluation in the statement of comprehensive income. The reversal of the recognized impairment losses is recorded as part of other income when there is an indication that the impairment losses recognized for the assets no longer exist or have decreased. The reversal of the impairment losses shall not exceed the carrying amount of the asset, net of depreciation or amortization, that would have been determined had no impairment losses been recognized for the asset in prior years.

Trade and Other Accounts Payables

Trade and other accounts payables are stated at cost.

Lease Liabilities

At the commencement date of the leases, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group's incremental borrowing rates (average interest rates on borrowings with similar term and characteristics to the underlying asset) shall be used. The lease payments that are not paid comprised (1) fixed payments (less any lease incentives receivable), (2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date (if any), (3) amounts expected to be payable under residual value

guarantees (if any), (4) exercise price of a purchase option if it is reasonably certain to exercise that option (if any) and (5) payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease (if any).

After the commencement date, the Group shall measure the lease liability by (1) increasing the carrying amount to reflect interest on the lease liability (if any), (2) reducing the carrying amount to reflect the lease payments made (if any) and (3) re-measuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments (if any). Interest on lease liability and variable lease payments not included in the measurement of the lease liability is charged as expense in profit or loss.

Lease fees attributable to short-term lease (not exceeding 12 months from commencement date) and lease of low-value asset are charged as expense in profit or loss on a straight-line basis over the related lease terms.

Deferred interest expenses which are presented net with finance lease liabilities will be amortized to finance costs over the term of the lease using the effective interest rate method. Each payment of finance lease liabilities is divided into principal and interest.

Employee benefits**Short-term benefits**

Salaries, wages, bonuses and contributions to social securities fund are recognized as expense upon their occurrences and on accrual basis.

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in the statements of comprehensive income.

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

Post-employment benefits

Obligations on defined contribution plan which is the provident fund are recognized as an expense in the statement of comprehensive income when contribution to the fund on an accrual basis.

Obligations on post-employment benefits which are defined benefit plan that will be settled to the employees upon retirement or termination are calculated by estimating the amount of future benefits that employees have earned in return for their service in the prior and current periods. The benefits are discounted using the project unit credit method to determine present value of obligations. The calculation is annually performed, or at least every three years, by the qualified actuary. Expenses from the estimated liability for post-employment benefits comprise current service cost and interest cost, which are recognized as profit or loss whereas actuarial gain/loss on measurement is recognized as other comprehensive income or loss in the statement of comprehensive income.

Provisions

A provision is recognized in the statement of financial position when the Group has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability.

Warranties

A provision for warranties is recognized when the underlying products or services are sold. The provision is based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

Revenue Recognition

Revenue excludes value added taxes and is arrived at after variable consideration such as deduction of trade discounts, sales return, rebate on award redemptions whereby there is consideration about characteristics, amount, timing as well as uncertainty of revenue and contractual cash flows from contract with customer.

Revenue is recognized when the significant risks and rewards of ownership and control have been transferred to the buyer. No revenue is recognized if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Service income is recognized at a point in time when the Group has completely rendered service to the customer and on an accrual basis.

Interest income is recognized over time on a time proportion basis that reflects the effective yield on the asset if significant.

Rental income on the assets which is operating lease is recognized over time on a straight-line basis over the lease term.

Other income is recognized on an accrual basis.

Expense Recognition

Expenses are recognized on an accrual basis.

Finance costs

Interest expense and similar costs are charged to the statements of comprehensive income in the period in which they are incurred, except to the extent that they are capitalized as being directly attributable to the acquisition, construction or production of an asset which necessarily

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

takes a substantial period of time to be prepared for its intended use or sale. The interest component of finance lease payments is recognized in profit or loss using the effective interest rate method.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Principal market is the market with the greatest volume and level of activity for the asset or liability. Market participants comprise buyers and sellers in the principal or most advantageous market for the asset or liability whereby market participants are independent of each other, knowledgeable and having a reasonable understanding, able to enter into a transaction for the asset or liability, and willing to enter into a transaction for the asset or liability.

To increase the consistency and comparability in fair value measurements and related disclosures in the financial statements, the fair value hierarchy is categorized into 3 levels with respect of the inputs to valuation techniques used to measure the fair value. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities ("Level 1 inputs"), secondary priority to other observable inputs ("Level 2 inputs"), and the lowest priority to unobservable inputs ("Level 3 inputs").

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

Financial Instruments

Recognition and measurement

The Group initially measures financial assets at fair value, plus transaction costs in case of financial assets that are not measured at fair value through profit or loss. Financial assets shall be classified and measured with respect to the business model on asset management and characteristics of the asset's contractual cash flows which is divided into three categories i.e. amortized cost, fair value through other comprehensive income, and fair value through profit or loss. Upon changes in business model on financial asset management are known, the affected financial assets shall be considered for proper reclassification.

Except for derivative liabilities, the Group initially measures financial liabilities at fair value net of transaction costs. Financial liabilities shall be classified and measured at amortized cost except for financial liabilities measured at fair value through profit or loss (such liabilities include derivative liabilities). Reclassification of financial liabilities is prohibited.

Classification and measurement

Assets classified and measured at amortized cost

- Cash and cash equivalents
- Trade receivables and other receivable (including advances and refundable deposits or guarantees excluding prepaid expense)
- Loans

Assets classified and measured at fair value through profit or loss

- Derivative assets (other current assets)

Liabilities classified and measured at amortized cost

- Short-term borrowings from financial institutions
- Trade payables and other payables (including accruals and repayable guarantees excluding deposits received and advances received from sales)

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

- Long-term borrowings from financial institutions.
- Lease liabilities
- Debentures

Liabilities classified and measured at fair value through profit or loss

- Derivative liabilities (other current liabilities)

Impairment

Impairment loss (previously before 2020 referred to as provision for doubtful account for certain items in the financial statements) from the expected credit loss of financial assets shall be recognized under General approach in the following stages :

- Stage 1 (performing) : the 12-month expected credit loss shall be recognized in profit or loss. Interest income (if any) shall be calculated base on gross carrying amount without netting the expected credit loss.
- Stage 2 (under-performing) : upon significant rise in credit risk and not being at low level, the entity shall recognize the full lifetime expected credit loss in profit or loss. Interest income (if any) shall be calculated based on the same principle to Stage 1.
- Stage 3 (credit-impaired) : upon significant rise in credit risk of financial asset that is considered as credit impaired, the entity shall recognize the full lifetime expected credit loss in profit or loss. Interest income (if any) shall be calculated from amortization cost base on gross carrying amount net of the allowance for impairment.

For trade receivables and contract assets, the entity is able to adopt simplified approach by recognizing the full lifetime expected credit loss for financial assets considered as aforesaid. In consideration and measurement of expected credit loss for both General approach and Simplified approach, the historical credit loss shall be combined with the forward looking information pertaining to the assets and significant factors relating to economic environment.

In respect of receivables, the Group categorized the population by focusing on aging balance information whereby the past records were captured for historical credit loss approximately 1 year. However, the Group had exercised certain mitigating measure indicated in the accounting guidance for Temporary Mitigating Policies for Alternative Accounting on the Effects from Pandemic Situation of the Coronavirus 2019 (COVID-19), issued by TFAC in April 2020 (effective only in 2020). Such mitigating measure related to exemption from combining forward looking information for the assets adopted the Simplified approach on consideration and measurement of the expected credit loss.

Hedge accounting

Hedge accounting is aimed for reflecting the impacts in the financial statements that are caused in risk management activities using the financial instruments on management of exposures to the risks and such risks shall affect profit or loss and/or other comprehensive income. Relationships and related accounting treatment of hedge accounting are divided into three categories i.e. fair value hedge, cash flows hedge, and hedge of net investment in foreign entity.

Derivative financial instruments are used to manage fair value risk exposed by change in foreign exchange rates arising from operating activities. Derivatives are not intended to use for trading purpose.

However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments. Derivatives are recognized initially at fair value and then are re-measured at fair value. Gain or loss on re-measurement to fair value is recognized as profit or loss.

The fair value of derivatives is the quoted market price at the statement of financial position date, which is the Level 2 inputs of the fair value hierarchy whereby such price is the present value of the quoted derivative price where market approach was used as valuation technique

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

and core information used in evaluation was the adjusted exchange rates in market to fit for the issued instrument which was computed by bank who was the counterparty.

Income Tax**Current tax**

Current tax is the amount of tax payable or recoverable which is calculated from taxable profit or loss for the year, using tax rates enacted at the statement of financial position date, and any adjustment to tax payable in respect of previous years (if any).

Deferred tax

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Temporary differences are not recognized for

the initial recognition of assets and liabilities that affect neither accounting nor taxable profit to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, at the tax rates that are expected to apply to the period when the deferred tax asset is realized or the tax liability is settled based on tax rates that have been enacted as at the statement of financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profit will be available against which the asset can be utilized. Deferred tax asset are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

<u>The consolidated statements of comprehensive income for the year ended</u>		
<u>December 31,</u>		
Share of profit of associate	48,447	59,255
Other income	3	4
Profit for the year	46,706	58,714

9. LAND NOT USE IN OPERATION

The management of the Company has considered and review the investment plan for the construction building of new office to increase number of stores, and survey all assets of the Company and found that the Company has a plot of land on the road under the Udon Rattaya Expressway, Bang Phut Subdistrict, Pak Kret District Nonthaburi with area of approximately 143 rai acquired in 2009 at a price of Baht 500.4 million to support the branch expansion plan at that time. Currently, the land is not used for the purposes as mentioned earlier, therefore, the Company has decided to transferred such land at aforesaid carrying amount, from property, plant and equipment to "Land not use in operation" which is separately presented in the statements of financial position as of 31 December 2020 and 2019. The latest value of such land, appraised in 2020 based on appraisal price of relevant government agency, amounting to approximately Baht 1,451.2 million.

Actuarial loss recognized in other comprehensive income arising from :

	In Thousand Baht	
	2020	2019
Change in financial assumptions	1,830	12,711
Change in demographic assumptions	16	13
Experience adjustments	4,124	2,195
Total	5,970	14,919

Significant assumptions used in calculation of liability for post-employment benefits are as follows :

- Discount rate 1.51-1.77% per annum in 2020 and 1.69-1.90% per annum in 2019
- Salary increase rate 6.0% per annum in 2020 and 2019
- Employee turnover rate 5.73-34.38% per annum in 2020 and 2019
- Mortality rates Based on Thai Mortality Table

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	In Thousand Baht	
	Increase	Decrease
Defined benefit obligation at December 31, 2020		
Discount rate (0.5% change)	(7,924)	8,652
Salary increase rate (1% change)	14,176	(12,112)
Employee turnover rate (20% change)	(25,776)	36,442

At the annual general meeting of the shareholders of the Company held on April 24, 2020, the shareholders passed the following resolutions :

- a) decrease authorized share capital from Baht 4,201,543,026 (4,201,543,026 ordinary shares at Baht 1 par value) to Baht 4,201,540,599 (4,201,540,599 ordinary shares at Baht 1 par value). The Company registered the capital decrease with the Ministry of Commerce on May 8, 2020;
- b) increase authorized share capital from Baht 4,201,540,599 (4,201,540,599 ordinary shares at Baht 1 par value) to Baht 4,401,613,960 (4,401,613,960 ordinary shares at Baht 1 par value). The 200,073,361 new ordinary shares were reserved for stock dividend. The Company registered the capital increase with the Ministry of Commerce on May 15, 2020.

At the annual general meeting of the shareholders of the Company held on April 23, 2019, the shareholders passed the following resolutions :

- c) decrease authorized share capital from Baht 4,001,472,951 (4,001,472,951 ordinary shares at Baht 1 par value) to Baht 4,001,469,549 (4,001,469,549 ordinary shares at Baht 1 par value). The Company registered the capital decrease with the Ministry of Commerce on May 17, 2019;

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY**Notes to the financial statements (continued)****December 31, 2020 and 2019**

- d) increase authorized share capital from Baht 4,001,469,549 (4,001,469,549 ordinary shares at Baht 1 par value) to Baht 4,201,543,026 (4,201,543,026 ordinary shares at Baht 1 par value). The 200,073,477 new ordinary shares were reserved for stock dividend. The Company registered the capital increase with the Ministry of Commerce on May 21, 2019.

Dividends

At the annual general meeting of the shareholders of the Company held on April 24, 2020, the shareholders approved the appropriation of dividends of Baht 0.25 per share, amounting to Baht 1,062.6 million, from the profit of 2019. The dividend distributed to the shareholders comprise of stock dividend on the basis of 20 ordinary shares for 1 stock dividend amounting to Baht 200.1 million (200.1 million ordinary shares at Baht 1 par value) and cash dividend of Baht 862.5 million on May 22, 2020. The Company registered the increase in paid-up share capital with the Ministry of Commerce on May 22, 2020.

At the annual general meeting of the shareholders of the Company held on April 23, 2019, the shareholders approved the appropriation of dividends of Baht 0.26 per share, amounting to Baht 1,022.6 million, from the profit of 2018. The dividend paid to the shareholders comprise stock dividend on the basis of 20 ordinary shares for 1 stock dividend amounting to Baht 200.1 million (200.1 million ordinary shares at Baht 1 par value) and cash dividend of Baht 822.5 million on May 23, 2019. The Company registered the increase in paid-up share capital with the Ministry of Commerce on May 23, 2019.

20. SHARE PREMIUM

The share premium is set up under the provision of Section 51 of the Public Companies Act B.E. 2535, which requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account ("share premium"). The share premium is not available for dividend distribution.

21. LEGAL RESERVE

The legal reserve is set up under the provisions of Section 116 of the Public Companies Act B.E. 2535. Section 116 requires that a company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorized capital. The legal reserve is not available for dividend distribution.

Notes to the financial statements (continued)

December 31, 2020 and 2019

25. EARNINGS PER SHARE

Earnings per share for the years ended December 31, 2020 and 2019 are determined by dividing the profit by the weighted average number of ordinary shares outstanding during the periods, after adjusting the number of ordinary shares in proportion to the change in the number of shares as a result of the increase in share capital arising from the issue of a stock dividend of 200.1 million shares on May 22, 2020. The number of ordinary shares of the prior period has been adjusted as if the stock dividend had been issued at the beginning of the earliest period reported as follows:

	In Thousand Baht / In Thousand Shares			
	Consolidated		Separate financial statements	
	2020	2019	2020	2019

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

28. DISCLOSURES OF FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENT

The Group is exposed to normal business risks relating to liquidity risk, credit risk, foreign currency risk and interest rate risk. The Group has used derivative financial instruments for hedging against the foreign currency risk without intention for trading or speculation purposes. The Group had no significant change in risk management policy relating to financial instruments during 2020 and 2019.

As at December 31, 2020 and 2019, the Group had the following assets and liabilities that are measured at fair value (both on a recurring or non-recurring basis) in the statements of financial position;

Derivative assets (Shown under other current assets) amounting to Bath 4 Thousand for 2020 and derivative liabilities (Shown under other current liabilities) amounting to Baht 5.4 million and Baht 27.5 million for 2020 and 2019, respectively (level 2).

Liquidity Risk

The Group manages its liquidity risk by maintaining a level of cash and cash equivalents as well as management of current assets and current liabilities and short-term and long-term sources of fund as deemed adequate to finance the operations of the Group and to mitigate the effects of fluctuations in cash flows and the lack of financial liquidity.

Credit Risk

Credit risk is the risk that a customer or counterparty is unable or unwilling to meet its financial and contractual commitments. To mitigate this risk, the Company periodically monitor and assess the financial viability of customers and counterparties.

Carrying amount of receivables presented in the statements of financial position is the maximum exposure to credit risk.

Foreign Currency Risk

The Group has significant business transactions internationally, which mainly is the import and the export of its products, giving rise to exposure to fluctuations in foreign currency exchange rates. In practical, the Group reduces this risk by matching cash receipts from its customers (receivables) against related cash payments. In addition, the Group has used forward exchange contracts (buy-sell) to mitigate this risk.

As at December 31, 2020, the Group has an outstanding balance of short-term forward purchase contract of U.S. Dollars 8.9 million (equivalent to Baht 272.1 million) and CNY 0.03 million (equivalent to Baht 0.1 million). The above contracts mature in December 2021 and January 2021, respectively.

As at December 31, 2020, the Group had significant outstanding non-hedged foreign currency assets and liabilities amounting to U.S. Dollars 2.2 million and CNY 5.6 million, respectively.

Interest Rate Risk

Interest rate risk arises from the fluctuation of market interest rates in the future, which may have a negative effect to current and future operations and cash flows of the Group. The Group's management believes that the interest rate risk is minimal because the Group's deposits at banks, bank overdrafts, short-term and long-term loans bear interest at the floating market interest rates. Debentures and lease liabilities bear interest at fixed rates which approximate market interest rates.

Fair Value Measurements

The following method and assumptions were used by the Group in estimating fair values of financial assets and financial liabilities :

SIAM GLOBAL HOUSE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY

Notes to the financial statements (continued)

December 31, 2020 and 2019

Cash and cash equivalents, trade and other accounts receivables, other current financial assets, short-term and long-term borrowings from financial institutions, trade and other payables, provision, other current financial liabilities, lease liabilities and debentures.

Carrying amounts of these financial assets and liabilities approximate fair values due to a portion of these financial instruments was stated at cash status or had the relatively short-term maturities whereas the rest bear interest at the floating or fixed interest rates which approximate market interest rates. (Level 2 data of the fair value hierarchy)

29. CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that they have an appropriate financial structure and preserves the ability to continue their business as a going concern.

As at December 31, 2020 and 2019, the Group's debt-to-equity ratio were 1.09 : 1 and 1.23 : 1., respectively, and the Company's debt-to-equity ratio were 1.08 : 1 and 1.24 : 1, respectively.

30. COMMITMENTS

As at December 31, 2020, the Group had:

- a) commitment to construction agreements for building and machinery with a related party and local companies amounting to Baht 526.0 million, and
- b) unused letters of credit totaling approximately U.S. Dollars 0.8 million (equivalent to Baht 23.3 million) and CNY 35.6 million (equivalent to Baht 167.1 million).

31. EVENT AFTER THE REPORTING PERIOD

At the Board of Directors' meeting held on February 10, 2021, the Board of Directors passed the resolution to pay the dividend for the 2020 operations totaling Baht 1,014.59 million to the shareholders. The dividend comprise stock dividends on the basis of 22 ordinary shares for 1 stock dividend amounting to Baht 200.07 million (200.07 million ordinary shares at Baht 1 par value) and cash dividend of Baht 814.52 million. The dividend payment will be further proposed to the Annual General Meeting of the Company's shareholders for approval in April 2021.
